

Announcing the 3rd

North East TA Regional Conference

Sponsored by the Institute of Transactional Analysis

National Science Learning Centre,
University of York

Saturday 7th November 2009, 9am - 5pm

Resilience and **Resistance**

The NETA one-day regional conference is to be held at the National Science Learning Centre, University of York, which offers excellent conference facilities, good food and full disabled access.

The campus is easily accessible by train and road, with parking available on site. York is less than an hour by road from Leeds Bradford airport.

Workshops - A diverse and stimulating programme of workshops suitable for both trainees and qualified practitioners will reflect the theme of the conference. A range of workshops will be on offer in both the morning and afternoon sessions. A bookshop will also be available.

Keynote Speaker – **Ray Little, Certified Transactional Analyst, UKCP Registered Psychotherapist.** Ray has been in private practice for over 25 years, and has published several articles integrating object relations and psychodynamic concepts with transactional analysis psychotherapy. He has a particular interest in working with primitive states of mind. He is also interested in the exploration of the therapeutic impasse; and this would include that between resistance to change on the one hand and the longing for the self-facilitating relationship on the other.

Cost: £70 ITA members, £75 non ITA members, £35 presenters

Early booking rates up to 19th September: £65 ITA members, £70 non-members

(Includes workshops, refreshments and lunch)
